

RED LETTER DAY IN LEGISLATURE

FLOW OF BILLS IS MOST CON-
STANT ALL DAY.

FIRST MEASURE PASSED

Refers to Powers of Justice of the
Peace in Milwaukee
County.

(By United Press.)
Madison, Feb. 14.—Today was "red letter day" for the introduction of bills in the legislature. Shortly after noon over 200 new measures had been introduced and it was freely predicted the number would be at least 350 at the end of the day's session in both houses. This would bring the total number during the present session up to that of two years ago or approximately 1,100.

First Bill Passed.
The first bill during the present session passed by the state senate went through today. It limits the power of justices of the peace in Milwaukee county and deprives them of jurisdiction over garnishment proceedings.

Two Hundred Bills.
This afternoon over two hundred bills were received in the assembly, this being the last day for new bills. Assemblyman Goff offered a drastic bill against white slavery, in which offenses committed outside the state shall constitute no defense.

Joint Resolution.
Senator Linley of Superior offered a joint resolution asking Wisconsin congressmen to support a bill granting pensions to certain veterans of the Civil and Mexican wars.

Foot Measure.
Following the lead of the democrats who last week introduced a joint resolution approving President Taft's reciprocity agreement, a substitute amendment was today introduced by Assemblyman Axel Johnson, representing the republican majority. In the form of an open letter to President Taft, securing him for his action on the Payne tariff bill and refusing his approval of the reciprocity agreement until it can be shown it does not discriminate against the people of the United States as a whole. This action precipitated a heated debate in the assembly and the measure was finally laid over until Thursday for further action.

Daily Sessions.
The senate today adopted a resolution providing for daily sessions during the remainder of the present session. This will eliminate the Friday to Tuesday recess, if passed. The resolution now goes to the house.

Minimum Wage Bill.
The first minimum wage bill ever presented in any state legislature of the United States was today introduced by Assemblyman Stern. Such laws are in force in England, Australia and New Zealand. The bill is backed by the Consumers' League of Wisconsin and vests in the state commission of labor the authority to compel payment of living wages by employers. The commission is, in addition, given the power to decide what wage is necessary to supply an employee with the ordinary necessities of life.

M'GOVERN OFFERED POSITION TO LYONS

Governor Would Place Superior Man
on Tax Commission.

(By United Press.)
Madison, Wis., Feb. 14.—Gov. McGovern today offered Attorney Thomas M. Lyons, of Lyons, the appointment as member of the state tax commission to succeed Judge N. S. Gibson, of Fond du Lac, resigned. It is considered doubtful he will accept. The unexpired term of Judge Gibson is four years, at a salary of \$5,000 yearly.

REBELS CLAIM THAT UNITED STATES IS ASSISTING MEXICO

Many Insurgents Under Arrest or
Are Indicted and Fugitives
From Justice.

(By United Press.)
El Paso, Texas, Feb. 14.—With Provisional Governor Zouaves a fugitive, from a United States warrant out for Francisco Madero, provisional President of the revolutionary government and General Castillas, in an American jail, members of the Mexico Insurrectionary Junta here today, freely charged the United States government with actively assisting Diaz to put down the rebellion.

The also insurgents who crossed the international boundary into New Mexico and were arrested by the United States troops Friday have been held to await the action grand jury in April.

UNIVERSITY FAVORS CANADIAN TREATY

Resume of Interviews With Prominent
Men Is Published This
Afternoon.

(Special to the Gazette.)
Madison, Wis., Feb. 14.—That reciprocity between the United States and Canada, as provided in agreement recommended by President Taft, is a desirable policy, was the verdict of University of Wisconsin professors and instructors, according to a symposium of interviews published in the State Journal today. Most of the men who answered the questions propounded apparently are averse to the importance of the issue now pending before the national legislative bodies of the two countries. The questions related to the effect of the agreement upon the cost of living, whether it would have the effect of downward revision, its effect upon western agricultural interests, its general effect upon the people.

Prof. Edward A. Ross, professor of sociology, said he believed reciprocity would lower the cost of living, that it amounted to partial downward revision, that in some respects it would be slightly detrimental to the agricultural interests of the border states, but that "the benefit from it overwhelmingly outweighs the detriment," as affecting the general population. Prof. C. Lloyd Jones (political science) said reciprocity would have very slight effect upon the first cost of living, but its influence would be toward the result. "Though it would have the effect of downward revision upon certain enumerated articles, he believed that 'these sectional adjustments, however, by geographical areas, can never have the effect as a schedule revision that would affect all countries trading in the articles treated.'"

Few of the scores of more of faculty members who answered differed to any considerable degree, most of them holding that as a general proposition, reciprocity as proposed in the pending agreement would be beneficial to the country at large and not especially detrimental to the border states and the agricultural interests.

MORE BILLS WERE INTRODUCED TODAY

Measures Affecting Supreme Court
Justices, Insane Patients, and
Other Matters Were
Presented.

(Special to the Gazette.)
Madison, Wis., Feb. 14.—To raise the salaries of justices of the state supreme court to \$8,000 and to retire them on half pay at the age of 70, as "commissioners" of the court, are the purposes of two bills introduced today by Assemblyman Harper. Another bill provides for a board of control to devise some means for caring for and alleviating the condition of indigent crippled children, and a fourth permits towns to open and close the polls on election days at the same hours as do cities.

Assemblyman McConnell today introduced a bill providing for pavilions for tubercular patients in hospitals for the chronic insane. The state board of health and the special legislative committee appointed to visit the charitable and penal institutions of the state favor the bill.

Assemblyman Gillroy introduced a bill providing for electric bell alarms at all grade crossings in the state.

Macedonian With Wounded Jaw
Claims Innocence of Attempted
Burglary at Home of Mrs.
Holmes.

La Crosse, Feb. 14.—Scrambled in bandages and tottering in weakness Steve Solihoff, a wounded Macedonian, charged with robbing and shooting Mrs. Ada Holmes here, was taken to court today and through an interpreter pleaded not guilty. The man was found wandering with his jaw partly shot off and it is claimed by the police that he was wounded by the shot which Mrs. Lewis says she fired at the burglar.

AGREEMENT TO END DEBATE HAS FAILED

Passage of the Canadian Reciprocity
Measure May Be Delayed for
Several Days.

(By Associated Press.)
Washington, D. C., Feb. 14.—When the House resumed the consideration of the Canadian reciprocity today it was announced the proposed agreement to end the general debate at 5 P. M. had failed and the passage of the measure might be delayed for two days.

HER VALENTINE—THE WINTER'S CONQUEST.

INTERNATIONAL LAW INVOLVED IN CASE

France and England Interested in De-
cision in Case of Indian Student
Which Court Took Up Today.

(Special to the Gazette.)
The Hague, Feb. 14.—The Hague Court of Arbitration met today to consider and act upon the case of Vinayak Damodhar Savarkar, the Indian student recently tried by the British courts in Bombay and sentenced to transportation for life on a charge of sedition. The case differs materially from any that has heretofore been brought to the Hague international tribunal for adjudication.

Savarkar was arrested in London about a year ago on a charge of sedition and was extradited to India for trial. At Marseilles the captive escaped from the vessel on which he was being taken to Bombay. A French gunboat seized him when he landed on the quay and immediately turned him over to the British detectives under the belief that he was a common thief. The French authorities later made a demand that Savarkar be turned over to them, on the ground that he had acquired the right of asylum on French soil as he was not a criminal, but a political offender. This question of international rights is now to be settled by the court of arbitration. Meanwhile the young Indian student has been tried and convicted in Bombay, but the sentence will be held in abeyance until the Hague court renders its decision.

THINK LORIMER VOTE MAY BE A TIE ONE

Members of Illinois Legislature Seek
to Influence Cullom
in His Vote.

(By United Press.)
Springfield, Ill., Feb. 14.—Figuring the fate of William Lorimer rests in the hands of United States Senator Cullom, Lorimer and anti-Lorimer members of the state legislature have begun deluging the senator with letters and telegrams seeking to influence his vote.

Politicians here figure that the vote on Lorimer, not counting Cullom, will be tied, forty-three to forty-three, and that Senator Cullom is necessary to the success of the Lorimer faction.

MAGNATES OF MAJOR LEAGUES GATHER

Annual Meeting Of American Baseball
League Began Today in Chicago
and National League in New
York.

(Special to the Gazette.)
Chicago, Ill., Feb. 14.—The annual spring session of the American Baseball league opened in Chicago today with an attendance of numerous managers and players as well as club owners. The large attendance indicated the importance of the business outside the usual routine is likely to be transacted before the sessions close, which probably will be on Thursday. After the schedules have been adopted, the clubs will start on their annual training trips preparatory to the beginning of the year baseball season. Outside of business pertaining to schedules, there is considerable interest in the secret scoring plan to be proposed by President Johnson, also in the ownership of the St. Louis club the problem players and the demand of the Eastern league and American association for higher classification, all of which will probably come up at the meeting for discussion.

National League in Session.
New York, Feb. 14.—With reports of all the baseball clubs in the front present, the schedule meeting of the National league began at the Hotel Breidley today. While no serious controversy is expected over the adoption of the schedule this year it is likely that the club owners and managers will continue their session over tomorrow, as several matters of more or less importance are to come up for discussion. It is understood that no serious objection will be made to the adoption of the proposed 15-game schedule.

NEW YORK SENATOR'S TRIAL BEGAN TODAY

Frank J. Gardner Alleged To Have
Accepted Bribes in Connection With
Efforts To Pass Bill in
Legislature.

(Special to the Gazette.)
New York, Feb. 14.—Frank J. Gardner, the former member of the New York state senate who was indicted last fall on a charge of bribery growing out of the efforts to defeat the anti-trunk bottling bill at Albany, was placed on trial in the supreme court here today. Gardner, who was a senator from Brooklyn, was indicted on the testimony of Assistant District Attorney Robert H. Elder of Kings County, who swore that Congressman Otto G. Foelker, while a state senator, was approached by Gardner and offered money if he would vote against the bill.

BOY SCOUTS WERE GREETED BY TAFT

Leaders Of Military Movement At-
tending Great Council At Wash-
ington Met President Today.

(Special to the Gazette.)
Washington, D. C., Feb. 14.—President Taft, who is honorary president of the Boy Scouts of America, gave evidence of his interest in the movement by receiving at the White House this afternoon the many leaders of the organization who are here in attendance on the first meeting of their national council. The boys, clad in regulation khaki suits, marched in procession from the New Willard Hotel to the executive mansion, where they were received in the East Room by the President and several members of his official family.

HIGH OFFICER OF ARMY IS RETIRED

Judge Advocate General George B.
Davis Has Reached Age Limit.
Changes Made in Army Corps.

(Special to the Gazette.)
Washington, D. C., Feb. 14.—After having served as judge advocate general of the army for almost a decade, Brig. Gen. George B. Davis relinquished his duties at noon today to his successor in office, Col. Enuch H. Crowder, the next senior officer of the corps. The change is due to the fact that Gen. Davis became 61 years of age today, and, therefore, under the law was relegated to the retired list. The retirement of Gen. Davis strikes from the active list one of the few surviving officers of the civil war. He entered the army in September, 1863, as a sergeant of the First Massachusetts Volunteer Cavalry. After the war he was admitted to the military academy. On his graduation, four years later, he was appointed second lieutenant of the Fifth Cavalry. He served in that regiment for seventeen years. He has held the office of judge advocate general since May, 1901. By virtue of special legislation and because of his service during the civil war he is retired with the rank of major general.

Col. Crowder, the new judge advocate general, is a native of Missouri. He was graduated from West Point in 1881. He served in the volunteer army in Cuba, during the war with Spain, and later in the Philippine insurrection, reaching the grade of brigadier general of volunteers. As the legal adviser to the governor of Cuba when the United States entered the island on its mission of pacification, from 1906 to 1909, Col. Crowder materially assisted in the re-establishment of the Cuban government.

Changes in Army.
Among the several changes and promotions among army officers resulting from the retirement today of Brig. Gen. George B. Davis one of the most interesting is the promotion of Lieut. Col. John A. Hull to the rank of colonel. Colonel Hull, who is not yet 37 years old, is by about 15 years the youngest officer of his rank in the entire military establishment of the United States. He is the son of former Congressman John A. Hull of Iowa, and has been in the army about 12 years. As judge advocate general of the Department of the East he has directed the preparation and prosecution of every court-martial that has been held in that department in the past four years. His promotion does not affect his present place, and he will continue on duty indefinitely on Governor's Island.

STARTLING FACTS GIVEN IN REPORT

COMMISSIONER OF CORPORA-
TIONS TELLS OF MONSTER
LUMBER TRUST.

CONTROL OF TIMBER LANDS

Is in the Hands of Very Few People,
Says Commissioner in Report,
Railroads Being Implicated
in Formation of Monopoly.

(By Associated Press.)
Washington, D. C., Feb. 14.—The concentration of the control of the standing timber in a very few hands, vast speculative holdings, "far in advance of any use thereof," the enormous increase in value of this diminishing natural resource, with the great profits to its owners, and incidentally "an equally sinister land monopoly" and "closely connected railroad domination," these are findings reported to the President by Commissioner of Corporations Smith in the first installment of his report on the lumber industry of the United States.

In Minnesota, Wisconsin, and Michigan he finds 215 holders have 65 per cent of all timber. In the entire timber area of the country privately owned standing timber, not including the value of the land, is estimated at least six billion dollars.

It is estimated that at the present rate of consumption the standing timber of the country will last only 65 years.

PROF. C. G. SMITH GAVE AN INTERESTING ADDRESS

On Subject of "Sanitary Science and
the Public Service" before a
Large Audience.

(Special to the Gazette.)
Beloit, Feb. 14.—"Sanitary Science and the Public Service" was the subject of a very interesting lecture given by Prof. C. G. Smith of Beloit College on the work of the chemist and bacteriologist, in purifying the water supplies, and improving the sanitary conditions of the great cities.

The larger portion of Prof. Smith's address was given over to a discussion of the investigation of the various forms of bacteria and to the relation of these bacteria to the water supplies, and thus, to the health of a city. To prove that nearly all epidemics in large cities could be directly traced to impure water, Mr. Smith told several of his own experiences in investigations in St. Louis, Des Moines, and other large cities. He also discussed the conditions in the tenement house districts in the great cities where hundreds of people are crowded into one dirty, badly ventilated building.

As Mr. Smith is a national authority on his subject, and his lecture was well illustrated with stereopticon views, the address proved very interesting and instructive to a large audience.

TARIFF MEASURE IS APPROVED OF

BRIEF INTERVIEW WITH SOME OF THE MANUFACTURERS.

THE CONSENSUS OF OPINION

Appears To Favor the Measure Now Being Considered By Congress Relative To These Treaties.

From the consensus of opinion of many of the manufacturers of Janesville and the Canadian reciprocity treaty is much favored. Fully a dozen were interviewed this morning and while some freely expressed their views, they asked not to be quoted and others would not talk on the matter at all.

F. B. Strickler, proprietor of the Strickler Hay Tool company, expressed himself as strongly in favor of a reciprocity agreement with Canada. "While our business is a comparatively small one, and we do not ship to Canada," he said, "still we would be glad to see the proposed tariff arrangement, as we believe that such a condition as would be brought about would benefit the country as a whole and especially the manufacturing towns. Any move of this kind that would open up the field for competition between the concerns of these countries would be a good thing and the only people in the nation who have any reason to oppose the measure are the lumber interests. The farmer could not help but be benefited, in our line under the existing tariff, we have to compete in Canada at an unfair disadvantage and from fifteen to twenty per cent must be added on for duty."

"Labor is higher in Canada," said J. W. Waterson, vice-president of the Lay-Waterson Shoe company, "and their methods are not as improved as ours, consequently any move that would open up the Canadian field for competition would be welcomed by us. Not only that but we would welcome the taking down of the bars, and are not afraid of competition from that source."

A. A. Crick, general manager of the Janesville Machine company, said that they were strongly in favor of reciprocity and that it would mean a reduction of five per cent on their goods. As to the opposition of the farmer, he maintained that they had nothing to fear and would undoubtedly be greatly benefited by free trade relations between Canada and the United States. "The stand was taken by J. R. Nichols, manager of the John C. Nichols Hardware Mfg. company that their business had absolutely nothing to fear from Canada competition, and that a reciprocity agreement between the two countries would only be considered by him as opening up newer and larger fields for his goods. He felt that the methods and equipment of the Canadian manufacturers were so far behind ours and that labor was so much higher there than here that competition arising either from sending goods across the border or receiving them in this country would not work any harm to the American sales."

RUNAWAY GIRL HAS NOT BEEN LOCATED

Mamie Nash is Missing and Parents Think She Has Gone To Beloit Or Rockford.

Taken from the Chicago train on the Northwestern railroad leaving Janesville about seven o'clock last evening, Mamie Nash, aged 18, adopted daughter of Mr. and Mrs. John Nash, 13 South Academy street, evaded her mother, while the latter went to report to Mr. Nash, and has disappeared. All of the trains last evening were watched for the girl, in the hope that she might be discovered attempting to leave town. No trace of her has thus far been found and her parents think she has gone to Beloit or Rockford. This belief is substantiated by a note which they claim the young woman left, saying that she did not like to live here, and thought she would like to live in Rockford. Miss Nash, according to her parents, wanted to go to Rockford to work in the watch factory there. She has a friend there, a Miss Louise Pettit with whom she had been corresponding, and in an effort to locate her missing daughter, Mrs. Nash this morning wrote to Miss Pettit.

The report is current that Mrs. Nash prevented a carefully planned elopement, and that her daughter was intending to run away with an extra conductor, working as brakeman on a run between here and Chicago on the Northwestern railroad. According to the story, Miss Nash was to take the train at the depot while the brakeman waited on as it passed there. It is alleged the man mentioned in the case was a wife and two children living in Chicago. Mrs. Nash denies their being any truth to the elopement story and believes her daughter to be in Rockford.

FAREWELL PARTY FOR MISS MARION SIMMONSEN

Clinton Young Lady Charmingly Entertained At A Costume Party In Honor Of Her Departure.

(Special to the Gazette.) Clinton, Feb. 14.—Several young ladies gave Miss Marion Simmonsen a farewell party at the home of Miss Addie J. Smith at the corner of Church and Cross streets last Friday evening. The young ladies were to dress in costume and some of the get ups were very striking. Miss Rachel Beala wore her great grandmother's wedding dress which was 150 years old. Miss Venetta Rader's costume was an Indian maiden, was very realistic. A group picture was taken next day by Mr. L. P. Beala.

The Two Extremes.

Two friends meeting after an absence of some years, during which time the one had increased considerably in bulk and the other still resembled only the "elfin of man."

Said the stout gentleman: "Why, Dick, you look as if you had not had a dinner since I last saw you."

"And you," replied the other, "look as if you had been at dinner ever since."—Tit-Bits.

Timely Assistance.

Rivers, who was writing an article on the cost of living, found himself temporarily at a loss.

"Brooks," he said, "I want to use that Scriptural phrase: 'from Dan to Beersheba'—what's the rest of it?"

"Beersheba!" suggested Brooks.

"Thanks," said Rivers resuming his writing. "I had it at my tongue's end, but I couldn't quite think of it."

Our Political Postoffice

John Wamamaker was Postmaster General; Senator Boies Penrose is chairman of the great Postoffice Committee of the United States Senate; Thomas H. Carter, Senator from Montana, has served many years on that committee.

No three men in the United States are better versed in postoffice affairs and needs than these.

On February 9, 1911, the Senate Postoffice Committee, under the leadership of Senators Penrose and Carter, reported favorably to the Senate for action the Postoffice Appropriation bill, containing a provision, but in without allowing public hearing or open consideration, put under political pressure from the White House, that increases the postage rate on magazines and periodicals to such an extent that it practically absorbs all the profits of the publishing business of the country and makes the further production of popular-priced magazines impossible. It imposes a tax that is confiscatory.

Notwithstanding, within the year Senator Boies Penrose said, referring to the Carter-Weeks bill:

"These are some of the big features of the bill. The whole intent is to systematize and to modernize the entire postal system. It is idle to take up such questions as apportioning the cost for carrying second-class mail matter or the proper compensation of railroads for transporting the mails until we shall have established business methods in postoffice affairs by a reorganization of the whole postal system."

"The commission unanimously recommended the passage of the projected bill. Personally I have been very much interested in all the details, and, of course, am heartily in favor of the changes to be made."

Senator Carter said last March:

"But I must forego further pursuit of details. The bill was cordially approved by Postmaster General Meyer and his assistants, and likewise has the approval of Postmaster General Hitchcock. It failed of passage during the last Congress owing to lack of time for its proper consideration, but I have re-introduced the bill, which is now designated Senate 6287, Second Session, Sixty-first Congress. The Committee on Postoffice and Postroads will favorably report the bill to the Senate, and it should be enacted into law before the close of this session. I believe not only that it will increase efficiency, but that, after the expense of installation is absorbed, it will result in such economies in the administration of the department and service as will ere long wipe out the deficiency. In operating under the department will be able with almost unerring certainty to determine the actual cost of each service performed, thereby precluding a sound basis for legislation such as is neither available nor obtainable under the present system."

"I deeply sympathize with the earnest desire of the department officials to get rid of the deficiency they are fated to encounter each year, but I submit that the first real movement toward that end must begin with the substitution of a modern, up-to-date business organization for the existing antiquated system, which rests upon a few sections of law enacted in 1835, supplemented by statutory fragments added from time to time since that year."

John Wamamaker said recently:

"With Mr. Hitchcock's suggestion, however, there will be no general agreement. The magazines are supported, not by the price paid for the magazine by the readers, but by the advertisers. In a sense, magazines are private concerns; but they have a public function to perform—an educational function. To tax the advertisements is to tax the quality of the educational matter contained in the pages, for the advertisements enable the publishers to pay high prices for literature and educational articles. The price paid for a magazine does not pay for the printing and the paper. If Mr. Hitchcock's suggestion should become part of the President's plan it would mean that the public would suffer in the loss of much educational material that the publishers then would be unable to buy."

We urge every friend of honest politics, economical government and a free press to telegraph or write an immediate protest to their Senators and Representatives at Washington.

WISCONSIN WEATHER FORECAST.

Rain or snow this afternoon; unsettled tonight or Wednesday; colder to-morrow.

TO ALL READERS

The Gazette is anxious to bring each of its readers into closer touch with both the newspaper and each other. It would like to have them feel free to send in news items, notices of parties, personal mentions, happenings in your own community, accidents that may occur—in fact anything that you think would interest other readers.

Matters of this nature can be telephoned to the editorial room. Call Rock county telephone 62, or Wisconsin phone 77 three rings.

Meetings of lodges, church gatherings, and special meetings of clubs it will be necessary to have written out and left at or mailed to the Gazette to avoid mistakes which might otherwise occur.

The columns of the paper are also open to communications on subjects of interest. Write your letter of affairs on one side of the paper only. Be sure and sign your name; it will not be published if you do not wish it to, and either leave or mail to the office.

Try this system and you will be surprised how much more interesting the reading of the evening paper becomes to you.

ing dismay and resentment at the prospect of reciprocity between this country and Canada. The great idea of the so-called tariff reformers of Great Britain was to establish a preferential duty on wheat and other grains, giving an imperial aspect to a measure really designed as a sop to the British landholder. It need hardly be said that with free trade in grain between this country and Canada, that plan must be abandoned.

"There can be no question that reciprocity will draw together the two English-speaking nations of this continent. It has been pointed out by our more deeply thinking economists that our astounding growth in production and manufacture has been due not to our burdensome tariffs on imports, but to free trade between forty-six prosperous states, extending over an area producing an abundance of virtually all that a nation needs for support. The tendency of a country like this is to develop from agriculture to manufacture; and the inclusion, therefore, in this great free area of what seems destined to be the largest wheat producing portion of the continent is to a great extent an economic necessity for the United States.

"That this will loosen the ties between Canada and the old country we do not believe, and we are glad to notice that the more thoughtful part of the English press accepts this view. Both the Statist and the Economist recognize that it is not merely the right but the duty of Canada to take advantage of an opportunity so valuable. Certainly it is no part of the British colonial system, the best of its kind since the Roman empire, to fetter a colony in a matter of such vital consequence to its future. If the reciprocity agreement becomes law we may be very sure that the protests in Great Britain will come from an element fortunately in no position to enforce its views.

"It was certain that the movement of American farmers into the expanding Northwest beyond our borders would bring about political changes. They have accepted the British rule, but we are in no position to say that they are striving to make Canada more American. The reciprocity idea in fact, in respect to removing burdens and barriers from commerce, is all in line with the greatest British traditions. Great Britain certainly cannot and ought not to blame herself if her greatest colony has learned her lesson so well."

That the state legislature will have much sifting of proposed legislation to attend to when it actually gets down to its winter's work is certain. There are so many fool bills already in that it will take hard work to get them sorted into any kind of shape. That hundred day session will probably last until some time in July at the present rate things are going.

With all the snow and ice going as fast as the February thaw will start it, the average boy is wishing for spring and forgetting that there are stormy days ahead and that if that ground hog really meant anything by going back in his hole there are snowy days and cold zero weather ahead of us yet.

Barclay still use wagons to haul away their plunder. The auto is still too high priced for their uses as yet but the time will come when the up-to-date "yoke" will travel around in his touring car and have his liveried driver as well as the pirate of high finance.

Senator Lorimer has one friend in Bailey of Texas, who is not afraid to stand up and talk turkey when need be. Soon Lorimer himself is going to make the plea of his life for his seat in the senate and then the vote will be taken.

China has hopes that some day it will be strong enough to tell England to move out and take its opium trade along with it. At present it must suffer from the indignity of having foreigners control this important item in their custom house receipts.

Russia has on trial two men who have deliberately murdered their victim by the cruelest system known to medical science, that of inoculation of disease in its most virulent form.

Taft regards the republican platform more than a mere device to catch the hedge hedge vote at elections and he is being backed by some of the strongest men in the country in his belief.

New York's excess of births over deaths in the past year showed an increase in population of fifty thousand. The cry of save the babies has evidently been heard in far off Gotham.

The Independent telephone companies refused to be "Morgantized" and prefer to fight it out on the same old ground rather than give up their individual rights.

Speaking of predictions. It is easy to predict that Lent will be late this year. It starts on the first of March and Easter does not come until well along into April.

Uncle Walt THE POET PHILOSOPHER

(Copyright, 1909, by George Matthews Adams.)

By WALT MASON.

It was a day of ice and sleet; all glary was the village street, and gentle and ladies tumbled down, and went whizzing through the town. Six times I broke my collar bone, and I was full of grief and groan. Six times I landed on my head, and breathed a wish that I were dead.

Six times I fell upon the wall, and slid in anguish round a block. And then I reached (and not too soon) a stretch of walk with ashes strewn; there man might use his legs and feel he didn't need to dance and reel. Old Hiram dived the trick, Old Hiram's crippled, bent and sick. He's lonely, feeble, tired and gray; he has no wealth to give away, and yet he tries, the best he can, to benefit his fellow man. And when he sees men whizzing past, their coat-tails flapping in the blast, the victims of a day of sleet, he sprinkles ashes on the street, and men with broken collar bones are blessing him, in earnest tones. You often hear some geezer say if he had wealth to give away, he'd do so much to help the race; he's simply talking through his face. You do not need a pile of dough to help to lessen earthly woes. Just look around you, and you'll view a thousand things that you may do.

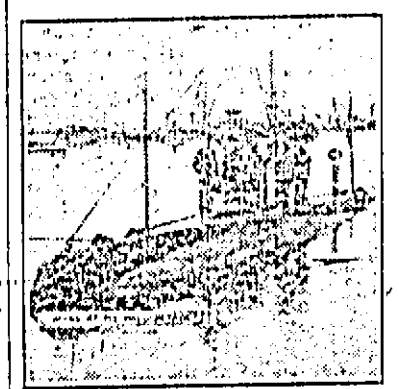

Daily Science Talk

SUBMARINE SAFETY.

SO many lives have been lost to foreign navies as a result of accidents to submarine boats that the United States has designated a board to investigate such matters. Tests have been made on the submarine boat Octopus whereby it has been shown that fourteen men could be confined twenty-four hours without admitting fresh air. It is thought that by the use of certain purifying chemicals this time can be extended to a week.

If salt water enters through a broken hull chlorine is evolved, which is a most deadly gas when breathed. The men must then make a quick escape to the outer air or else be provided with artificially prepared supplies of oxygen beneath the surface of the water.

UNITED STATES SUBMARINE HOLLAND.

In an air trap where compressed air is supplied the men put on the strange garment, then escape by turn through the conning tower, the buoyancy supplied by the apparatus floating them to the surface. If anything demands them below they can use the same air again and again, because it is constantly purified and replenished by the apparatus.

A cable message recently published from Kiel, Germany, tells how the German submarine U 3 had gone to the bottom through the accidental filling of her water tankers. But through a buoy telephone the commander notified the rescue ship Vulkan that members of the crew were comfortable and the supply of oxygen was good for forty-eight hours.

The Vulkan attached chains to the U 3 and drew her up so that one end showed above the water. Twenty-seven of the crew escaped through the torpedo tube. The three others, including the commander, elected to remain in the tower, where the supply of oxygen proved ample until there came a break in a ventilator, cutting off the supply by admitting water, whereupon the men perished.

Little Bed-Time Tales

By EDITH HAVENS

Valentine's Day

It was just before Valentine's Day and Peggy and Tom were getting ready to give to their little friends. Every year at this time, Mrs. Butler always let them go out for a little while after supper in order to give them a chance to leave the valentines at the various doors of their little friends. And it was a big event indeed, for such very little people to be allowed to go out after supper. Just before bedtime the children went over their valentines once more to see if they were all labeled correctly and such a pretty array of lay things there were. Some of them had been purchased with money they had saved, while others were those which they had received on the previous St. Valentine's Day.

It was then that Peggy and Tom were the most excited of all. Bundled up warm and snug, Mrs. Butler kissed them goodby and told them to be sure and be home by eight o'clock.

thirty. Away they went out into the night, loaded down with their valentines.

"We will go to Philip's house first," whispered Peggy. Away they went towards a house on the corner.

When they got near, they crouched down behind the fence, because they did not wish to take any chance of Philip seeing them. Then they neared the front steps. They trembled all over with excitement.

Slowly, very carefully, they slipped up the steps and placing the Valentine upon the doormat, Tom gave the front doorbell a mighty pull. Away they dashed and hiding down behind the fence, they waited for somebody to come to the door. The door suddenly opened with a jerk, and they heard Philip's laugh and they saw him come out and after picking up the valentine, look all around. Then he went in and shut the door. Oh, what fun it was.

Next they went to Persis Haskell's house and were successful in getting away unknown.

Soon they met other boys and girls and what a time they all did have until long after eight o'clock.

But there were some surprises in store for Peggy and Tom, too, for when they arrived home they found that a great many valentines had been left for them.

Wasn't it fun?

Heart to Heart Talks.

By EDWIN A. NYE.

"FINISHING" THE GIRL.

A wealthy widow of the Meadowbrook colony has applied to the courts for an allowance of \$17,990 annually to "complete the education" of her daughter.

The girl is to be "finished" abroad. Two, three or four years may be necessary for the "finishing" process.

Why \$17,990?

Well, there must be an establishment in Paris and probably one in London. It includes maid and governess, besides other servants. It means expensive teachers for music, painting, riding, dancing, gymnasium, etc.

Then there is the "grand tour" of the continent, so the "bird" may speak intelligently of well known places.

And there must be the outfit for the debut, and Paris dressmakers are expensive.

Seventeen thousand dollars.

Why, plenty of American girls are "finished" in this country for considerably less than seventeen hundred.

I know of one mighty fine specimen who was "finished" on less than \$170 a year.

The folks sent her through high school, where she was graduated with honors.

True, she may lack some of the fancy accomplishments of the European finished young woman, but she is better educated in things worth while, better prepared to be a good American wife and mother.

\$17,000—\$17,000—\$17,000.

I tell you I can instance a "finished" girl, back in the eighties, whose education did not cost to exceed \$17 a year. And a very sweet girl she was.

The cost of her three or four books and of her two or three simple gowns—one of lacy woody, with white cuffs and collars, for school wear and one or two of white muslin for Sunday—did not exceed the sum I have named.

\$17,000—\$17,000—\$17,000. It does not matter so much as to the cost, but it does matter as to the girl. It is nice to have \$17,000 or \$17,000 or even \$170 to spend on your girl's education.

But—

Is the girl really educated?

Does the finishing finish?

Slightly Mixed.

"What was the lesson 'at school this afternoon, Tommy?" asked the fond parent.

"Had a reading on the destruction of Tyre," responded the youngster.

"If I automobile accident, I suppose?"

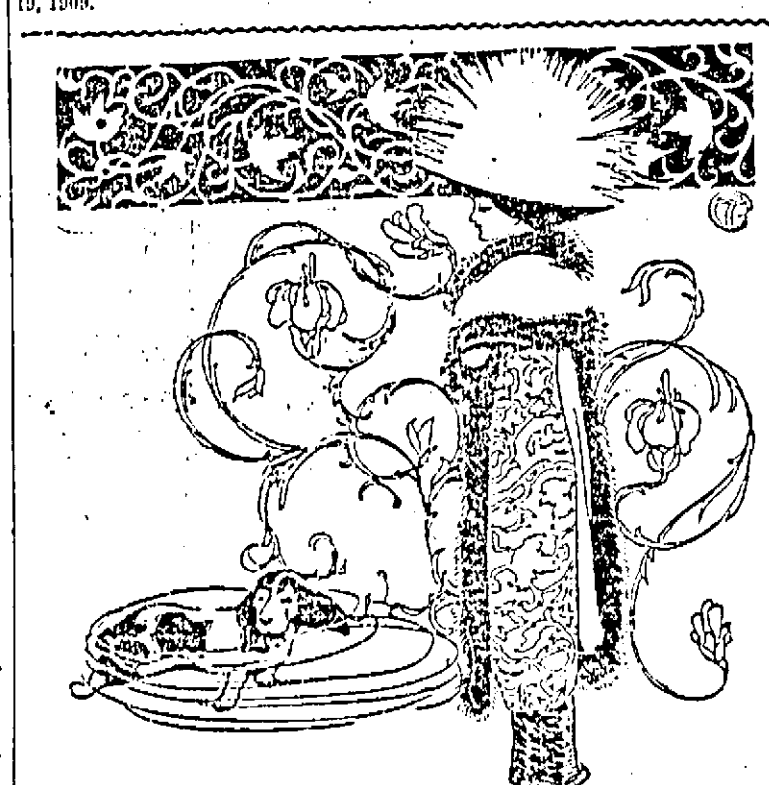

CHAMPIONSHIP FIGHT IN FEATHERWEIGHT DIVISION.

At left, Abe Attell. At right, Jim Driscoll.

London, England.—The first fight in which Attell will take part after his broken arm healed will probably be with Jim Driscoll here. It will determine the world's championship and is to be staged in March. Much interest centers in the bout. The two met in a no-decision fight at New York February 12, 1908.

"If you want to be strong and healthy, Mille," advised Aunt Jemima, "eat a raw onion every morning before breakfast."

"I'd rather not do that, auntie," said Miss Millecent; "I shall be satisfied with being merely healthy."

No one thinks of "kicking" because he has to await his turn to be waited upon at the postoffice, railroad ticket office, dry goods stores, grocery or market, but many expect to be waited upon instantaneously when they use a telephone, no matter how many calls the operator has received ahead of theirs. They seem to think that for the 3 to 8 cents a day they pay for service, the company should maintain an operator for their exclusive use.

Think it over and be reasonable. Don't scold the operator. She is a very busy person engaged in a nerve racking business. Don't blame her if the party you want is not in the house or is slow in answering.

CITY IS FLOODED BY SEVERE STORM

STORM LAST NIGHT DID CONSIDERABLE DAMAGE IN MANY SECTIONS.

SPRING BROOK UNDER WATER

Persons Had to be Conveyed From Their Homes to Work by Teams—Cellars Deluged.

With Rock river way above the average depth and rising rapidly, Spring Brook under water, cellars flooded in many localities and considerable damage done, the heavy rain and electrical storm of last evening has left its marks upon Janesville and the vicinity. Down in the vicinity of Houb's brewery the river has gone way over the banks and passed the high marks of previous floods by several rods. At the electric power house the depth of the water is now almost as high as last spring's freshest and rising

HIGH WATER IN SPRING BROOK

with more water coming down from up stream if the weather does not turn cold and freeze up.

A clogged sewer at the corner of Duane and Palm street this morning caused a lake, almost a block long and fully two feet deep to form and many residents were forced to call the assistance of a pumping unit to remove the water. Fully a half dozen houses were entirely surrounded by water. Nor was this condition alone in lower parts of the city. On top of the hill in the Third ward several cellars were flooded from overflows from the yards and clogged waste pipes.

At the Calorie plant the water poured into the basement and considerable damage was done to goods stored there. There is still much snow to melt and the ground being frozen beneath it makes veritable floods where over the water flows.

A report from Milwaukee says: "Unusually heavy rainfall for February is reported throughout the southern part of Wisconsin during the past twenty-four hours by the local weather bureau here today. The rainfall at different points follows: La Crosse .88 in.; Madison .92 in.; Milwaukee .48 in.; Green Bay .76 in."

JANESVILLE LODGE HAS BEEN HONORED

Local Chapter of W. O. W. Will Put on Work at Annual Convention at La Crosse—Are Selected From Three States.

Word has been received here by Lynn Whaley, clerk of the Janesville Chapter No. 127, Workmen of the World, from State Manager Moss that the local lodge has been chosen to put on the work at the annual convention of the order which will be held at La Crosse on the 14th and 15th of March. This selection was made from the lodges of three states, Wisconsin, Illinois, and Minnesota, and is a high honor, considering the number of lodges which are to be found in these three states.

Representatives of the order from all parts of these three states will be in attendance at the convention which will be an event of importance, and all the prominent officers of this section will be present. The local order gained distinction at the exhibition drill which they made at Milwaukee about a year ago and this honor comes

MANY PROJECTS ARE TO BE ATTENDED TO

Commercial and Industrial Club Organize For the Coming Year Work—Interurban Talked Of.

That the Commercial and Industrial association mean to follow the same line as those laid down at the time of its organization a year ago, was evidenced by the action of the board of directors in selecting all the officers, planning for legislative committee to watch adverse legislation, discussing the feasibility of securing a subscription for the proposed Madison-Janesville Interurban and passing a resolution asking the Chicago, Milwaukee and St. Paul road to place another train between Janesville and Mineral Point in operation.

Allen Lovejoy was re-elected President, H. L. McNamara vice president, A. E. Matheson, secretary and T. O. Howe treasurer. The question of a permanent secretary to fill the vacancy caused by the resignation of De Armand has not yet been decided upon. The executive committee has a number of applications from all parts of the county and several have been made relative to the work expected and recommendations exchanged. It is expected that this question will be decided before many weeks so that the active work can be continued along the lines laid down last year.

George C. Sutherland brought up for informal discussion, the question of subscription of some seventy-five thousand dollars worth of preferred stock to aid in the construction of the proposed interurban between Madison and Janesville as laid out by the Cincinnati Construction Company. The matter was discussed only informally but the executive committee will investigate the matter and make a report later.

The Cincinnati Construction company has the route all surveyed, the right of way for a good portion of the proposed route under option and has a certificate of necessity and convenience issued by the state railway commission. H. H. Ziebler, of Columbus, is president of the company and Joseph Ellis, who makes Madison his headquarters is the resident manager and chief engineer. The road will cross in the neighborhood of a million dollars and it is now proposed to loan preferred stock to citizens along the right of way. Seventy-five thousand dollars being considered a fair apportionment for Janesville to handle.

The question of adverse legislation to the business interests of Janesville, now pending in the state legislature was also discussed and it was decided to appoint a special legislative committee to go to Madison and watch out for adverse bills that may come up for a hearing. This committee will be named by the executive committee at some later date and will plan on their method of campaign. As Janesville is represented by a State Senator and a member of the assembly it will be easy to keep in touch with the matter under discussion and thus simplify the work in hand.

The question of passing a resolution asking the Chicago, Milwaukee and St. Paul railroad to put another train on their regular schedule between this city and Mineral Point was brought up and passed. The resolution will be forwarded to the general offices of the company. The train in question would leave Janesville early in the morning and return late at night.

AN EARLY SETTLER IN COUNTY PASSED AWAY

Watkin Davies, Who Came to Janesville in 1840, Died Last Evening at Home in Town of Center.

Watkin Davies, a highly respected pioneer of Rock county, passed away at his home in the town of Center, Monday evening, Feb. 13, after a brief illness of heart failure and pneumonia. Coming of sturdy Welsh parentage he reached the ripe old age of 81 years, 6 months and 12 days.

He was born in Welshpool, Wales, April 11, 1829. The family came to Cleveland, Ohio in 1834. In the fall of that year they moved to Wisconsin, settling near Janesville, which was then composed of two stores and a few houses. In the following year the parents returned to Ohio and the deceased located in the town of Center where he has since resided. He was married to Sarah E. Crall on December 11, 1853, who died May 23, 1888.

On July 4, 1874, he was again united in marriage to Mrs. Emmeline Brower, who survives him. The first marriage was blessed with five children, four of whom are living. They are: Mrs. Sarah Dunbar of Portville, George E. of Cleveland, Ohio, John E. and Frank L. of Center.

The funeral will be held Thursday afternoon at two o'clock from the home. Interment will be in Beloit cemetery.

STORM DAMAGED THE FIRE ALARM SYSTEM

Cable At City Hall Burned Out, Disabling System and Repairs Were Made Today.

Last night's electrical storm burned out the cables of the electric fire alarm system leading into the city hall to such an extent that in order to keep the wires in working order, Chief Klein of the Fire Department found it necessary to put in another cable. Repair work was started early this morning in order that it might be finished today, the old cable being removed this afternoon and the new one substituted. The apparatus has been in a defective condition for some time, but the whole system throughout the city out of commission for a time, action was deferred by the chief until it was absolutely necessary. Preparations, however, were made to do the work speedily when necessity required it.

Still Alarm. A still alarm call was received by the fire department about ten o'clock this morning for a chimney fire at the home of Mrs. Hattie Stewart, 100 West Third. The alarm was answered and one of the wagons responded. There was no damage, a slight trouble with one of the chimneys giving rise to the scare.

SALVATION ARMY TO MAKE BIG EXPOSAL

Capt. and Mrs. Byres Will Expose the Biggest Lie in Beloit On Wednesday Evening.

At the meeting of the Salvation Army at their chapel on Wednesday evening of this week Captain and Mrs. Byres will expose to the citizens of Janesville the biggest lie in Beloit. As Capt. Byres came from Beloit he claims to be fully able to reveal the truth in his home city who has the largest number of prevarications checked to his credit. Beside this startling un-announced Capt. Byres will speak of his work in the Line City and special music has been planned. The joint bands of the Janesville and Beloit organizations will discourse preliminary music.

Other important meeting of the work will be on Friday, Saturday and Sunday at eight o'clock when Major Percy Norton divisional officer from Minneapolis will hold special meetings and will speak on the following topics: "The Soul Winner's Secret" on Friday; "From Pit to Palace," Saturday; and "Salvation," Sunday.

OBITUARY.

Alexander Hay.
Alexander Hay passed away this morning about four o'clock at his home on Rock Prairie after an illness of about ten days with a complication of pneumonia and measles. The deceased was thirty-eight years of age and was born in Scotland. When he was eleven years of age he came to this country and settled in Rock County. Besides his wife he leaves a mother, Mrs. J. Hay in Scotland, a brother, James Hay of Emerald Grove, a sister, Mrs. James Thompson of this city. He also leaves three brothers and another sister in Scotland. Funeral services will be held on Friday afternoon, and interment will probably be in the Johnson cemetery.

How He Felt.

Miss Gusher (to neoprene passenger)—It must have been splendid riding around up there. Didn't you feel as though you owned all the world beneath you?
Thirlid Passenger—Well, I certainly had an idea that I was a great deal better off.

Cavanagh, Forest Ranger

The Great Conservation Novel

By HAMLIN GARLAND

Copyright, 1910, by Hamlin Garland

Cavanagh understood the necessity for these precautions, but that of all came his own need of food and rest. Turning his tired horse to grass, he stretched himself along a grassy, sunny cranny between the rocks and there ate and afterward slept, while all about him the lambs called and the conies whined.

He was awakened by a pebble tossed upon him, and when he arose, stiff and sore, but feeling stronger and in better temper, the sun was shining low. Settling to work at his trade, he threw the loose rock out of a hollow in the ledge near by, and to this rude suppelcher Wetherford dragged the dead man, refusing all aid, and there piled a cairn of rocks above his grave.

The ranger took a hand at the end and rolled some huge boulders upon the grave to insure the wolves' defeat.

"Now burn the bedding," he commanded. "The whole camp has got to go, and your clothing, too, after we get down the hill."

"What will we do with the sheep?"

"Drive them over the divide and leave them."

All these things Wetherford did, and, leaving the camp in ashes behind him, Cavanagh drove the sheep before him on his homeward way. As night fell the dog, at his command, rounded them up and put them to bed, and the men went on down the valley, leaving the brave brute on guard, pathetic figure of faithful guardianship.

"It hurts me to desert you, old fellow," called the ranger, looking back, "but there's no help for it. I'll come up in the morning and bring you some biscuit."

It was long after dark when they entered the canyon just above the cabin, and Wetherford was shivering from cold and weakness.

"Now, you pull up just outside the gate and wait there till I bring out some blankets. Then you've got to strip to the skin and start the world

all over again," said Cavanagh. "I'll build a fire here and we'll cremate your past. How about it?"

"I'm willing," responded Wetherford. "You can burn everything that belongs to me but my wife and my girl."

All through the ceremony which followed rain this self-batter. "I'll be all ranger, barring a commission," he said, with a grin as he put on the olive yellow shirt and a pair of dusty green trousers. "And here goes my past!" he added as he tossed his contaminated rag upon the fire.

"What a corking opportunity to make a fresh start," commented Cavanagh. "I hope you see it."

"I see it, but it's hard to live up to your mark."

When every precaution had been taken the ranger led the freshly scrubbed, scoured and transformed fugitive to his cabin.

"Why, man, you're fit for the state legislature," he exclaimed as they came into the full light. "My clothes don't precisely meet every demand you make upon them, but they give you an air of command. I wish your wife could see you now." Then, seeing that Wetherford was really in earnest, he added: "You can stay with me as long as you wish. Perhaps in time you might be able to work into the service

as a guard, although the chief is getting more and more insistent on real foresters."

There were tears in Wetherford's eyes as he said: "You cannot realize what this clean, warm uniform means to me. For nine years I wore the prison stripes. It is ten years since I was dressed like a man."

"You need not worry about foot or shouter for the present," replied Cavanagh gently. "Grub is not costly here, and house rent is less than nominal, so make yourself at home and get strong."

Wetherford lifted his head. "But I want to do something. I want to redeem myself in some way. I don't want my girl to know who I am, but I'd like to win her respect. I can't be what you say she thinks I was, but if I had a chance I might show myself a man again. I wouldn't mind Liza knowing that I am alive. It might be a comfort to her. But I don't want, even, her to be told that I

can go to her in my own skin."

"She's pretty sick," said Cavanagh. "I telephoned two Virginia last night, and if you wish you may ride down with me tomorrow and see her."

"The old man fell a tremble. 'I don't dare do that. I can't bear to tell her where I've been.'"

"She needn't know. I will tell her you've been out of your mind. I'll say anything you wish. You can go to her in the clothes you have on if you like. She will not recognize you as the prisoner I held the other night. You can have your beard trimmed, and not even the justice will know you."

All reserve had vanished out of the convict's heart, and with choking voice he thanked his young host. "I'll never be a burden to you," he declared in a firmer voice. "And if my lung holds out I'll show you I'm not the total loss that I fear to be."

CHAPTER XVI. CAVANAGH FOLLOWS HIS CHIEF.

A breakfast next morning Cavanagh said: "I must ride back and take some bread to the dog. I can't go away and leave him there without saying hello."

"Let me do that," suggested Wetherford. "I'm afraid to go down to the fork. I reckon I'd better go back and tend the sheep till Gregg sends some one up to take my place."

"That might be too late to see Liza. Lee's voice showed great anxiety. She may be on her deathbed. No; you'd better go down with me today," he urged. And at last the old man consented.

Putting some bread in his pockets, Ross rode off up the trail to see how the dog and his flock were faring. He had not gone far when he heard the tinkle of the bells and the murmur of the lambs, and a few moments later the colts came toward him with the air of a boy who, having assumed to disregard the orders of his master, expects a scolding. He plainly said: "I've brought my sheep to you because I was lonesome. Please forgive me."

Cavanagh called to him cheerily and tossed him a piece of bread, which he caught in his teeth, but did not swallow. On the contrary, he held it wide laughing for joy of the praise he heard in his new found master's voice.

Turning the flock upward toward the higher peaks, the ranger commanded the colts to their heels and so, having redeemed his promise, rode back to the cabin, where he found Wetherford and did and ready for his momentary trip to the valley. He had shaved away his gray beard, and had Ross been unprepared for these changes he would have been puzzled to account for this decidedly military figure sitting stately on his pony before the door.

"You can prove an idiot," he called as he drew near. "Gregg himself would never recognize you now."

Wetherford was in no mood for joking. "Liza will. I wore a moustache in the old days, and there's a scar on my chin."

As he rode he confided this strange thing to Cavanagh. "I know," said he, "that Liza is old and wrinkled, for I've seen her, but all the same I can't realize it. That heavy set woman down there is not Liza. My Liza is slim and straight. This woman whom you know has stolen her name and face, that's all. I can't explain exactly what I feel, but Leo Virginia means more to me now than Liza."

"I think I understand you," said Cavanagh, with sympathy in his voice. The nearer Wetherford came to the actual meeting with his wife the more he shook. At last he stopped in the road. "I don't believe I can do it," he declared. "I'll be like a ghost to her. What's the use of it? She'll only be worried by my story. I reckon I'd better keep dark to everybody. Let me go back. I'm plum scared cold."

While still he argued two men on horseback rounded a sharp turn in the trail and came face to face with the ranger. Wetherford's face went suddenly gray. "There's the deputy!"

"Keep quiet. I'll do the talking," commanded Cavanagh, who was instant in his determination to shield the man. "Good-morning, gentlemen," he called cheerily. "You're abroad early?"

The man in front was the deputy sheriff of the county; his companion was a stranger.

"That was a horrible mess you stumbled on over on Deer creek," the deputy remarked.

"It certainly was. Have any arrests been made?"

"Not yet, but we're on a clew. This is Stuart Hines of Dallas, Mr. Cavanagh," pursued the deputy. The two men nodded in token of the introduction, and the deputy went on, "You remember that old case that used to work for Gregg?"

Again Cavanagh nodded.

"Well, that chap is wanted by the Texas authorities. Mr. Hines here wants to see him mighty bad. He's an escaped convict with a bad record."

"Is that so?" exclaimed Cavanagh. "I thought he seemed a bit gun shy."

"The last seen of him was when Sam Gregg sent him up to herd sheep. I think he was mixed up in that killing yourself—him and Ballard—and were going off to get some track of him. Didn't turn up at your station, did he?"

"Yes; he came by some days ago, on his way, so he said, to relieve that sick Basque, Ambro. I went up a couple of days ago and found the Basque dead and the old man gone. I buried the herder the best I could, and I'm on my way down to report the case."

The deputy mused. "He may be hanging round some of the lumber camps. I reckon we had better go up and look the ground over anyhow. We might just chance to overtake him."

"He may have pulled out over the range," suggested the ranger. "Anyhow, it's a long way up there, and you'll probably have to camp at my place tonight. You'll find the key hanging over the door. Go in and make yourself comfortable."

Wetherford lifted his head. "But I want to do something. I want to redeem myself in some way. I don't want my girl to know who I am, but I'd like to win her respect. I can't be what you say she thinks I was, but if I had a chance I might show myself a man again. I wouldn't mind Liza knowing that I am alive. It might be a comfort to her. But I don't want, even, her to be told that I

can go to her in my own skin."

"She's pretty sick," said Cavanagh. "I telephoned two Virginia last night, and if you wish you may ride down with me tomorrow and see her."

"The old man fell a tremble. 'I don't dare do that. I can't bear to tell her where I've been.'"

"She needn't know. I will tell her you've been out of your mind. I'll say anything you wish. You can go to her in the clothes you have on if you like. She will not recognize you as the prisoner I held the other night. You can have your beard trimmed, and not even the justice will know you."

All reserve had vanished out of the convict's heart, and with choking voice he thanked his young host. "I'll never be a burden to you," he declared in a firmer voice. "And if my lung holds out I'll show you I'm not the total loss that I fear to be."

TO PETITION ROAD FOR BETTER SERVICE

Movement Has Been Started By Local Council U. C. T. To Secure More Trains To Mineral Point.

On a motion passed at a recent meeting of the local council of United Commercial Travelers, a committee has been appointed to circulate a petition to secure better service on the Mineral Point division of the Chicago, Milwaukee and St. Paul railroad. Already some three hundred signatures have been secured, all of whom are prominent people along the route who are worthy of consideration.

The Commercial club of this city have also adopted a resolution to the same effect and the citizens of Janesville are generally expected to receive the petition favorably and swell the total list of petitioners.

It is the desire to have a train leave this city about 7:30 in the morning for Mineral Point and arrive there on a return trip at about eight o'clock in the evening. No additional equipment, it is said, will be required as at present the train runs over twenty-three hours for over twenty-three hours. That such a train would be liberally patronized and would be of great convenience to the general public is admitted by everyone. Local shippers of express goods would be especially benefited, as would also the merchants of the towns on the route, where petitions will also be circulated.

PATRIOTIC PROGRAM AT LINCOLN SCHOOL

Pupils of Eighth Grade Entertained Those of Sixth and Seventh Yesterday Afternoon.

With an excellent program of patriotic songs and recitations the pupils of the eighth grade of the Lincoln school entertained the sixth and seventh rooms yesterday afternoon. One of the features of the program was a debate on the question of the removal of the Academy from a very close and animated discussion and the judges found difficulty in announcing the decision which was two to one in favor of the affirmative. Mrs. Georgia Hyde, Miss Helen Welch and T. E. Welch acted as judges.

The program follows:

Song—"Battle Hymn of the Republic."

Recitation: "Kipling's Recessional"—John Cribben.

"The Flag"—Mary Toldrian.

Song—"Lincoln Memorial."

Recitation: "Tulsa Call"—Evelyn Welch.

Recitation: "How They Sang the Star Spangled Banner when Lincoln was inaugurated."

Song: "Our Lincoln"—Florence Douglas.

Debate—Resolved that the Academy was justified in removing the Academy. Affirmative: Albert Currier, Jesse George, Oscar Eller, Don Shawson. Negative: Luan Koesters, Marie Crowley, Henry Froese, Willie Heller.

Song—"Soldier Boys."

BROOKLYN MAN WEDDED TO A MAUWEDTOSA GIRL

Ray Biglow and Miss Sylvia Lefebvre Were United in Marriage at the Bride's Home.

Brooklyn, Feb. 13.—Ray Biglow, of this place, and Miss Sylvia Lefebvre of Mauwautosa, were united in marriage at the home of the bride's parents Tuesday evening, Feb. 7, at 8 o'clock. The Rev. Mark P. Sandborn of the Baptist church of this place performed the ceremony. The bride was dressed in white and carried a beautiful shower bouquet of sweet peas. The house was artistically decorated, the sitting room with palms and yellow tulips and white roses. An elaborate wedding supper was served to about sixty guests and the dining room was decorated with pink carnations.

Those who attended from this vicinity were Mr. and Mrs. Lloyd Porter and Mrs. Maude Axtell of Evansville, W. A. Douglas of Janesville, Miss Edna Wigold of Black Earth and Mr. and Mrs. Lucius Biglow of this place. The happy couple received many beautiful and useful presents. NEW BUILDING FOR MONROE COMPANY

An Addition Will Be Made To Plant Of the Borden Condensing Company—Personal News.

[SPECIAL TO THE GAZETTE.]

Monroe, Wis., Feb. 14.—Another big building is soon to be put up in this city, which will be in the form of an addition to the Borden Condensing company's plant, located near the Illinois Central depot. The new building will be still larger than the addition erected a few years ago, and will be 54x132, two story, located directly west of the former addition. This will extend the building out even with the boiler room on the west.

The process of erection will be begun as soon as the weather permits. The new addition will be four feet wider and thirteen feet longer than the older addition. Other improvements may also be made at the plant, but St. Paul, Church cannot say anything definitely of the plans at present.

New Time Table.

A new time table went into effect on the Milwaukee road yesterday affecting two passengers and three freight trains at this station. The change in time of the morning freight, formerly due here at 4:10 a. m. and now leaving here at 4:18 a. m. makes it possible for passengers from here going east to catch the morning freight on the Freeport-Dodgeville branch for stations along that road. Horsefords passengers were either obliged to leave here at noon and wait at Dill until 7 o'clock in the evening to make the Dodgeville connection or go to Red Oak on the 5:26 on the Illinois Central and wait there for several hours.

Waived Examination.

John O. Harrington waived examination when taken before Police Justice M. E. Baltzer on a charge of the larceny of a pocketbook containing \$55 from a writing desk in the First National bank, and was bound over to the circuit court. It is thought, however, he is preparing to plead guilty and will accept sentence without waiting for the circuit court.

Conley Phillips.

Announcement has been received here of the marriage of Jesse J. Phillips, son of Mrs. Emma J. Phillips, of this city, to Miss Martha Conley, of Chicago, the marriage being celebrated at the bride's home. The young man has been employed as printer in that city, and prior to going there a year ago, compiled and published in partnership with L. Browne O'Neill, the Monroe City Directory.
